COMPLAINT

Systemic harms done to me at an International level between my employers, all guilty of employment fraud.

The harms done to me are physical damages and because the employers fired me I am unable to get medical care for the harms they did to me, etc.

While I was employed by one employer, I was also employed by the others,

I was also involved in legal disputes, over the employers while I was gaining new employment with these employers.

[Left margin, written vertically:] violated their internal company policies and rules => so they can claim harming me and breaking the laws are legal. The Defendants violated

[Top, written upside down/curved:] me and breaking the laws are legal. The their own company/academic laws, ~~but they say it is~~ to them but instead they, ~~attacked me~~ horribly with Civil, State, ~~attacked me~~ Federal Laws, Constitutional Rights violations and Labor Law violations

[Right margin, written vertically:] Defendants violated ~~laws~~ at the company so that they can evade the law

Systemic harms were done to me by my employers and I was punished for following their internal policies to report employment law violations, Civil, State, Federal, Constitutional law violations done to me. The internal policies ~~are~~ were used to create a falsified paper trail against me => collect information and assess how to treat me.

At each employer I was working for the employers' other locations at the same time, remotely. The employers have companies located all over the world and when at the companies I worked with people at their companies all over the world. Google Inc. and alphabet Inc. are the same company ~~but as~~ but I am not sure if they ~~were~~ the same company when I was there.

Your court system is not taking into account the geographical ~~to~~ mobility of people due to technology ~~s~~ and so we are working at a global level with these companies and my case involves all these employers.

My property was stolen and is now being used inside every google product.

[Bottom, written upside down:] actually, I was saying I violated their internal company laws (Employment laws, academic research policies) and I was saying ...
